Rocket I must destroy regiments of the Zupus and Helicon craft to reach first docking station Docking bonus points are scored as the docking ship is linked with the Mother Craft in the shortest possible time. Pilot maneuvers rockets using port-starboard directional controls Descent can be slowed by firing retro-rocket control. Docking must be completed within 30 seconds! The highest bonus is achieved by docking in the shortest time Failure to dock results in the loss of all bonus points A crash during this phase destroys the docking rocket When docking sequence is completed successfully, Rockets I and II join forces for triple firing power to combat the Mercator craft As the last of the Mercator vehicle are eliminated RED ALERT! Be prepared for a cross-fire of Taurids meteor showers! Pilot must command Rockets I and II through meteors before attempting link-up with Rocket III at second docking station As Rockets I and II dock with Rocket III, firing capability is combined for MULTI-FIRE power! The three-stage rocket now beams five lasers at the oncoming Titan missiles. When the last of these craft are destroyed, Flight Plan MARS INVADER is re-activated for increased challenge and fun
